# Leadership Class of 2008

## Raises record \$226,504 to create a world free of MS

The MS Leadership Class hit new heights in 2008, setting records for participation and funds raised to create a world free of MS.

The 78 business and civic leaders who took part in the campaign raised \$226,504 to support crucial programs, services and research for local people living with multiple sclerosis.

They were led in their effort by James Santora, O'Neill Properties Group, who raised \$27,060 to support people in the Greater Delaware Valley who are affected by this disease.

The concept behind the MS Leadership program is simple: the National MS Society encourages local leaders to join the movement to create a world free of MS. As they fundraise to reach their \$1,000 minimum goal, participants discover just how many people are

touched by MS, often finding that co-workers or neighbors are living with the disease.

Multiple sclerosis is a chronic, often disabling disease of the central nervous system with no known cause or cure. Symptoms are unpredictable; they may be mild, such as numbness in the limbs, or more severe, including paralysis or loss of vision. Every hour of every day, another American is diagnosed. The Greater Delaware Valley Chapter serves 11,000 people living with MS in Pennsylvania and New Jersey.

**For more information about how you can join the movement or to nominate someone for next year's class, please call 1-800-FIGHT-MS or visit [nationalMSsociety.org/pae](http://nationalMSsociety.org/pae).**

## WE EXIST TO MAKE SURE IT DOESN'T

Multiple sclerosis interrupts the flow of information between the brain and the body and stops people from moving. By working together to create a world free of MS, we can address the challenges of each person whose life is affected by the disease and help them stay connected to the great big moving world.
